CREATE A KILLER PARTY

Murder—A Great Icebreaker

Everything you need for a great theme party for 6 to 8 friends is right here. Choose one of the two mysteries included, then print everything you need personalized to you and your guests. And you don't need to invite the computer to the party.

Murder By Computer

You use the computer to personalize the mystery to the players, so their names, descriptions, even their habits and other personal details are part of the story. When the car is spotted leaving the scene of the crime, it's your car. So you feel personally involved in the murder.

You're Implicated In Murder

The murderer's identity changes each time you create a new party, so anyone who's played before can't spoil the ending. No one knows who the murderer is—not even the murderer! The tension mounts as the clues are revealed, and you start to wonder if you're the murderer...

Accessories To Murder

Your computer will print out all of the personalized materials you need, including the invitations, clue sheets, capsule biographies and background. Over a dozen pages per player—and all of it refers directly to them.

Computer? What Computer?

You don't need the computer at the party—once you've generated the party materials, all you need is food, drink, and some dramatic atmosphere. You can even use the office computer to have fun at home. No need to find out if that portable computer really is portable.

TWO GREAT MURDER MYSTERIES

The Big Kill

Somebody's dropped the final curtain on famous movie star Jeremy Summers. He was your college buddy in the Sixties, back when you and some wild friends all lived in that house in Berkeley. Relive those great times of vintage rock & roll, love beads and tie-dyed jeans. Those were the good old days, weren't they? You and all those old pals just have to get together to talk about Jeremy's death. Especially considering one of you is the murderer.

Empire

Rose Hips, the wealthy widow of pharmaceuticals magnate Ferris Smith, has been found dead in the palatial mansion she inherited after Ferris' sudden death. The coroner says poison—and with the enormous wealth she inherited, it sure wasn't suicide. In the ultra-rich society set, designer clothing, elegant settings and nasty banter are expected...but murder is frowned upon. Which of the associates and relatives with a claim to the fortune has a new prescription for success?

ELECTRONIC ARTS™

Electronic Arts provides a limited ninety-day warranty on the recording media. See limited warranty statement enclosed. The warranty does not apply to the software programs themselves, which are provided AS IS.
